### **Detailed Action**

1.) The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2.) Claims 1-6, 12, and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, line 7, it is not clear what is meant by "a changing sequence circuit". Perhaps applicant intended charging sequence circuit ? Claims 2-6 are inadequate under 35USC112 in that they depend from claim 1. Claim 12 depends from a non-existent claim and claim 13 depends from itself, making it unclear what subject matter these claims are directed to.

3.) Claims 1-6 would be given favorable consideration if claim 1 were suitably recast to overcome the rejection under 35USC112 above. None of the prior art of record teaches or suggests a portable electric arc welder with the features claimed.

4.) Claims 7-11 are allowable over the prior art of record. None of the prior art of record teaches or suggests a portable electric welder with an internal battery charger with the features claimed.

5.) The patents to Johnson (2,836,736), Johnson (2,999,950), Kamp (3,227,979), and Carlson (3,659,183) are cited to show prior art welding power supplies with an associated battery charger.
